WORKSTATIONS

Learning and workspaces are not a one size fits all approach — every space has unique needs and requirements that require more than a cookie-cutter solution. Today's spaces often require an integrated blend of private workspaces, areas for team collaboration, high-density zones, reception stations, and multi-purpose rooms that need to maintain a professional appearance across the board.

Interior Concepts delivers on all counts. We specialize in school, office, and contact center furniture and have over 20 years experience delivering quality furniture solutions that are backed by a lifetime warranty and made in the USA. Our tagline is 'solutions that fit' because we tackle each project individually and deliver solutions tailored precisely to your needs.

We're here to make your job easier. From initial idea to final details, we do whatever it takes to make sure your project goes as smoothly as possible. With our ImagineIt! Design Sessions we design furniture to fit your needs. Our design specialists work closely with you to learn about your needs and to understand your specific issues. With the flexibility of our designs, your input becomes our output. Discover what is simply the best furniture-purchasing experience in the industry — one focused entirely on you and your needs.

Bring your vision to life with an
ImagineIt! Design Session.

"When opening a new high school, you work with literally hundreds of different companies — and Interior Concepts stood out with their service. From the planning and design process to the on-time delivery and efficient installation, everything that Interior Concepts promised us came to fruition. I can say without hesitation that Interior Concepts tops the list when it comes to service. Interior Concepts does it right." — Mark Kalvoda, Principal, Elkhorn South High School
