

GO BOLD

Some projects simply demand to be colorful — and Interior Concepts delivers with bold and bright options for your tables, panels, and worksurfaces. With our rainbow of laminates, you can color like a kid and bring a cheerful aesthetic to your projects.

Worksurface edging will match the frame selection as the default option, but some laminates have the choice of coordinating 3mm worksurface edges (*indicated by an **). Metal finish choices for framework, tables, and accessories vary by product and are outlined in a simple chart.

All Brights fabric and laminate options shown are Grade 2 — and all markerboard options are Grade 3. Laminate colors outside of our standard options are also available.

Order color chips samples by either contacting your sales representative or calling 800.678.5550.
