ALL AROUND COLOR

Worksurface edging matches the frame selection as the default option, but you have the choice of combining a coordinated worksurface and edge. Grade levels in edge options are listed only to assist with cross-referencing the coordinating worksurface laminates on the graded color cards.

To discuss finish options, please contact your sales representative or call 800.678.5550. Note that there may be slight variations in color and texture between the printed card and the actual product.
